Credit Card Number: [Text boxes] CVV (3 Digit Number on the Back) [Text box]

Expiration Date: [Text boxes] (MM) (YYYY) Valid CC Signature [Text box]

PART D – RECIPROCALITY WITH OTHER STATES Ohio has reciprocal agreements based on residency with several states. If you are applying for a license based on Reciprocity, you must be a resident and have passed exams in that state. You are required to send a legible copy of your driver's license and pesticide license with the application. If you are an Ohio resident, you must take Ohio's exams for licensing.

- Alabama Florida Georgia Illinois Indiana Louisiana Michigan
Minnesota Mississippi New York Pennsylvania Virginia Texas West Virginia

PART E – PESTICIDE USE CATEGORIES (CHOOSING PESTICIDE USE CATEGORIES) You may check 4 or less categories with this application. You may add additional categories later. Core is automatically included with a new application and does not count as one of the 4 categories.

<input type="checkbox"/>	CHECK if you do NOT want or need study material or if study materials were picked up previously.
<input type="checkbox"/>	1 AERIAL PESTS The application of pesticides by aircraft. (a copy of pilot license is required)
<input type="checkbox"/>	2a AGRONOMIC PESTS The application of pesticides to agronomic crops for the control of pests other than weeds.
<input type="checkbox"/>	2b HORTICULTURAL PESTS The application of pesticides to fruit and vegetable crops for the control of pests other than weeds.
<input type="checkbox"/>	2c AGRICULTURAL WEED The application of pesticides for the control of weeds in agronomic crops or horticultural crops.
<input type="checkbox"/>	2d SEED TREATMENT The application of pesticides to seed for the control of insects and disease organisms.
<input type="checkbox"/>	2e TOBACCO SUCKERING The application of growth regulators to tobacco plants for the control of sucker growth.
<input type="checkbox"/>	2f SOIL FUMIGATION The application of fumigants to soil for the control of soil-inhabiting pests.
<input type="checkbox"/>	3a GENERAL AQUATIC The application of pesticides to standing or running water, other than swimming pools, for the control of aquatic pests.
<input type="checkbox"/>	3b BOAT ANTI-FOULANT The application of restricted-use anti-foulants to boats for the control of undesirable organisms.
<input type="checkbox"/>	3c SEWER ROOT The application of restricted-use pesticides to sewer pipes for the control of tree roots.
<input type="checkbox"/>	4a FOREST PESTS The application of pesticides to forested areas for the control of tree pests and weeds, and for the selective elimination of unwanted wood species as a forest management practice.
<input type="checkbox"/>	4b WOOD PRESERVATION The application of pesticides to wood products such as crossties, poles, shingles, posts or other wood products that are not part of a structure when treated and are or will be exposed to insects, fungi, marine pests, or weather.
<input type="checkbox"/>	5 INDUSTRIAL VEGETATION The application of pesticides to non-agricultural lands, such as roadways, public water courses, utility rights-of-way, or in close proximity to industrial sites, power stations, parking lots or similar areas for the control or eradication of unwanted vegetation. NOTE: this category is permitted to make 6c applications.
<input type="checkbox"/>	6a ORNAMENTAL PESTS The application of pesticides to control insects and diseases of exterior ornamental plants and trees, and weeds of exterior ornamental areas such as landscape beds, tree and shrub plantings, sidewalks, driveways, or similar areas. NOTE: this category is permitted to make 6c applications.
<input type="checkbox"/>	6b INTERIOR PLANTSCAPES The application of pesticides to control insects, diseases, and weeds of indoor ornamental plants in locations such as homes, offices, shopping malls, stores, or similar sites.
<input type="checkbox"/>	6c ORNAMENTAL WEED The application of pesticides to exterior ornamental areas such as landscape beds, tree and shrub plantings, sidewalks, driveways, or similar areas for the control or eradication of unwanted vegetation. NOTE: This category includes beaches for weed control.
<input type="checkbox"/>	6d GREENHOUSE PESTS The application of pesticides to control insects, diseases, and weeds of plants grown under glass or plastic cover.
<input type="checkbox"/>	7 VERTEBRATE ANIMAL The application of pesticides other than fumigants for the control of pest birds whether within or outside structures, and for the control of rodents, and any other vertebrates, in situations other than covered under commercial pesticide-use category 10a. NOTE: Moles and Bats included.
<input type="checkbox"/>	8 TURF PESTS The application of pesticides to lawns, turf, sod, or to soil areas being prepared for the production of turf for the control of pests except vertebrates. NOTE: this category is permitted to make 6c applications.
<input type="checkbox"/>	9 LIVESTOCK/ANIMAL PESTS The application of pesticides to domestic animals which are held as agricultural commodities, or to structures in which they are confined, for the control of pests of such animals.
<input type="checkbox"/>	10a GENERAL PEST The application of pesticides in or around human dwellings, industrial plants and business offices, food-handling establishments, schools, hospitals or other institutions, warehouses, grain elevators, or similar buildings to control pests, including rodents, of such structures or of the occupants, furnishings, or provisions of those structures, except for the control of pest birds and termites or fungi. NOTE: 10a category is permitted to make applications to turf to control pests of the structure, but they must provide customer information, post the lawn, and keep non-structural application records.
<input type="checkbox"/>	10b TERMITE The application of pesticides in or around various structures, or to the ground prior to construction of a structure, for the control of termites and other invertebrate wood-destroying insects
<input type="checkbox"/>	10c FUMIGATION The application of fumigants to structures, or commodities or equipment which is enclosed within structures or other specially confined areas (including areas temporarily confined expressly for the purpose of fumigation) such as bins, rooms, cargo spaces, and boxcars, for the control of any pests contained within these structures or confined areas.
<input type="checkbox"/>	10d MOSQUITO, HOUSE FLY The application of pesticides outdoors to control invertebrate pests which are a threat to public health or a nuisance to humans, such as mosquitoes, house flies, chiggers, and ticks, but does not include uses covered by commercial pesticide-use category (7).
<input type="checkbox"/>	12 WOOD DESTROYING INSECT DIAGNOSTIC INSPECTION (WDI) (WDI Training is required for licensure) The examination of a structure at the request of any party involved in a contemplated real estate transaction to determine if wood destroying insects are present in the structure, if there is evidence they either are or have been present in the structure, or the presence of any visible damage to the structure caused by wood-destroying insects and the generation of a written report of the findings of the examination. Other requirements with this category: completion of a WDI Training Program.
<input type="checkbox"/>	FERTILIZER CERTIFICATION The application of fertilizer to more than 50 acres of agricultural production grown primarily for sale.

EXAM AND APPLICATION INFORMATION:

- You must pass the Core exam and at least one other category to be licensed. The category examinations are specific to what area or for what purpose you are applying the pesticide.
- All exams consist of multiple choice questions and are NOT open book exams. Photo ID is required at the examination sites.
- If you fail the exams, you must wait a minimum of five business days to retest. If you need to retest, there is no additional fee required.
- Exams are valid for one year from the date you pass the exams. You may become licensed within that year by passing a core exam, category exam, submitting an application and fee. If you do not meet all of these requirements, you will need to retest in the exams that have expired and submit a new application if the application has expired.
- Reservations must be scheduled to take the exams. People who have pre-registered will be given exams first. Walk-ins, who did not register, will have to wait or may not be able to take the exam at that time. An exam listing is provided in the study material packet or you can go online to register at www.agri.ohio.gov.
- The application is valid for the licensing year in which you have applied on Page 1. If you do not meet requirements within the year that you have applied, then a new application and fee will be required. License fees are non-refundable.
- Training for new applicants is conducted by Ohio State University. Contact them at <http://pested.osu.edu> or 614-292-4070.
- In order to be licensed to conduct Wood Destroying Insect (WDI) Inspections, you must also complete a WDI Inspection Training Program. Training is conducted by Ohio State University. Contact them at <http://pested.osu.edu> or 614-292-4070.

RENEWAL FOR COMMERCIAL APPLICATORS:

- The licensing period is October 1 to September 30 of each year.
- The license is renewed every year by the end of September with an application and fee.
- The license must be renewed within one hundred eighty days after the date of expiration. If the license is not renewed within one hundred eighty days, you must retake exams.
- Licenses can be renewed online at www.agri.ohio.gov.

RECERTIFICATION FOR COMMERCIAL APPLICATORS:

- Once you are licensed, you are certified for three years as long as you renew the license annually. To recertify, you may retake the examinations or attend ODA approved recertification training sessions before the recertification expiration date listed on the license.
- Recertification: A minimum of 5 hours of training is required. Of those 5 hours, at least 1 hour must be in Core training, and ½ hour in each category.
- If you do not meet these recertification requirements by your expiration date, you must retest.
- Available training sessions can be viewed at www.agri.ohio.gov or <http://pested.osu.edu>.
